

MOTOTRBO R7

BE HEARD ABOVE ALL ELSE

PROVIDING NEXT-LEVEL NOISE CANCELLATION, LOUDNESS, AND CLARITY, SO YOU NEVER HAVE TO WORRY ABOUT BEING HEARD.

MOTOTRBO R7 is a digital portable two-way radio offering game-changing audio capabilities in a rugged, future-ready device. Its advanced audio processing ensures that your communications are heard loud and clear, while its rugged construction enables a tool that withstands impact and advanced connectivity options get your workforce ready for tomorrow.

BE HEARD ABOVE ALL ELSE

Providing next-level noise cancellation, loudness, and clarity, MOTOTRBO R7 excels where audio communications can be challenging, so your team can hear and be heard anywhere you operate — even in the noisiest environments.

Adaptive Dual Microphone Noise Suppression brings game-changing noise cancellation to your team, so you can hear them over the deafening noise of heavy machinery, a busy airport runway, or wherever you may be. Automatic Acoustic Feedback Suppression intelligently cancels out the feedback of other close-by radio systems, for a seamless voice experience regardless of how many radio users surround you. Intelligent Audio monitors background noise and adjusts speaker volume so users don't have to, ensuring calls are always at the perfect volume.

BUILT TO OUTPERFORM AND CONNECT WHEN IT COUNTS

Powered by MOTOTRBO systems, R7 is ready to connect your staff with customized voice coverage anywhere the job takes you. Built rugged to meet military standards, but with a sleek body style and modern ergonomic form, the MOTOTRBO R7 is ready to outperform all your expectations.

MOTOROLA SOLUTIONS TECHNOLOGY ECOSYSTEM

Motorola Solutions has developed the first and only technology ecosystem that unifies voice, video, data and analytics in a single platform, enabling all teams at your venue to work together in more powerful ways. We call it [Safety Reimagined](#). MOTOTRBO R7 is built into this ecosystem so you can keep your team connected and streamline critical communications, while collaborating with video security systems, sensors and more.

MOTOTRBO R7 FOR TRANSPORTATION AND LOGISTICS

Dealing with noise is all in a day's work but coverage issues or difficulty hearing shouldn't be. Your team works together to enhance safety and efficiency while abiding by government regulations, everyday. Use a radio that functions as an essential part of those operations, no matter when or where they're being used.

OPERATIONS THAT HAVE NO BOUNDARIES

As the premier radio for MOTOTRBO systems, R7 is ready to empower your team with custom voice coverage to keep them connected when it counts, anywhere you go. MOTOTRBO systems combine superior signal strength with the flexibility to customize site coverage. This means that operations are never interrupted by difficulties in communication brought by lack of coverage or audio quality. Motorola Solutions offers the largest portfolio of broadband Push-To-Talk and Land Mobile Radio interoperability so you don't have to worry about losing connection with your teams, even when they are working through different devices, networks, and locations.

BUILT TO ENDURE

We know you need a radio that outlast the requirements of even the harshest environments. MOTOTRBO R7 is tested to meet military standards, and built to outperform whatever is thrown its way. R7 is intrinsically safe, so you can use it in hazardous environments. When a worker drops their device, or it is left behind during an evacuation – know your device is built to endure, without the risk of ignition or fire.

MINIMIZE DOWNTIME

Your radios serve you best when they're easy to use, operate, and ready when you need them. MOTOTRBO R7's is equipped with features that ensure that your radio has the longest battery life possible, calibrates independently, and guards against unauthorized access and interception. Minimizing downtime is essential for technology that's making your team more productive, efficient, and safe while abiding by government regulations on the job.

RECEIVE INSTANT ALERTS

Is there a door propped open, a loading truck arriving at a port, or even a security breach? Different situations require different levels of awareness and attention. Ensure the right people on your team are always in the know with integrated awareness tools, like [Orchestrate](#), capable of sending automatic alerts to predefined user groups so the right people can quickly respond to the situation.

*Essential Services provide five years of assurance through hardware repair coverage, technical support, software updates and premium features. Five-year accidental damage coverage is available as an add-on service.
